

CONTENTS

A. NAPIÓRKOWSKA, M. LASKA, A. ISAŃSKA-ĆWIEK, The influence of building regulations on the efficiency and pollution level of the heating system	5
W. ŻUKOWSKI, J. BARON, B. KOWARSKA, J. ZABAGŁO, N ₂ O conversion in active and chemically inert fluidized bed	15
I. KOWALSKA, Separation of anionic surface-active agents in an integrated ion exchange–sedimentation–ultrafiltration purification system	33
T. SUPONIK, Adsorption and biodegradation in PRB technology	43
I. PŁONKA, K. BARBUSIŃSKI, Preliminary research into the digestion of post-coagulation sludge	59
Y. CAO, A. PAWŁOWSKI, J. ZHANG, Preparation of activated carbons with enhanced adsorption of cationic and anionic dyes from Chinese Hickory husk using the Taguchi method	69
M. HAWROT-PAW, A. KAMIENIECKA, B. SMOLIK, Biological activity of soil contaminated by biodiesel	87
G. NAŁĘCZ-JAWECKI, S. BARAN, J. MANKIEWICZ-BOCZEK, E. NIEMIRYCZ, L. WOLSKA, J. KNAPIK, K. PIEKARSKA, M. BARTOSIEWICZ, G. PIĘTOWSKI, The first Polish interlaboratory comparison of the luminescent bacteria bioassay with three standard toxicants	95
H. HOTŁOŚ, Quantitative assessment of the influence of water pressure on the reliability of water-pipe networks in service	103
D. SŁYŚ, Application of numerical simulation in design of innovative <i>Kalipso</i> -type sewage tank	113
