

## Letters to the Editor

Dear Editor,

Due to our fault, and much to our dismay, the first sentence in Section 3.1. of our paper entitled "*Numerical investigations of the imaging by curved holographic lens*" (published in *Optica Applicata*, Vol. 18, No. 1, 1988, p. 51) has been deformed. It should be: ... "The influence of the hologram bending on the image quality has been investigated by WELFORD [5], MUSTAFIN [6], MUSTAFIN and SATTAROV [17], GAJ and KIJEK [7], JAGOSZEWSKI [18], and most recently VERBOVEN and LAGASSE [8], WEINÄRTNER and ROSENBRUCH [9]". ... Consequently, the following positions in the References of our paper have been missed:

[17] MUSTAFIN K. C., SATTAROV F. A., *Opt. Spektrosk.* **47** (1979), 1204, (in Russian).

[18] JAGOSZEWSKI E., *Optik* **69** (1985), 85.

We are very sorry for this mistake.

Sincerely yours

*Jerzy Nowak, Marek Zajac*
