## **Introduction**

The collection of articles published in the current issue of Financial Science covers the problems from the area of company finance, accounting, financial education, behavioral finances and mathematical methods of analyzing phenomena on financial markets. The articles by S. Kokeyeva and by B. Jabłoński belong in the area of company finance.

The importance of psychological conditioning concerning financial decisions is the research subject of M. Maciejasz-Świątkiewicz and M. Musiał. The level of financial education features in the area of interest of M. Szafrńska. The paper by Ch. Senarathne and T. Šoja refers to quantitative methods of analysis in the area of financial market. K. Świetla examines the issue of the protection of accounting data.

We hope that the diversity of these subjects will provide additional interest for the readers.
