# Physicochemical Problems of Mineral Processing

Volume 54, Issue 3, July 1, 2018

An international journal which covers theoretical approaches and their practical applications in all aspects of mineral processing and extractive metallurgy.

## Editors-in-Chief

Przemyslaw B. Kowalczyk, Wroclaw University of Science and Technology, Poland  
and Norwegian University of Science and Technology, Norway  
Jan Drzymala, Wroclaw University of Science and Technology, Poland

## Editors

Emre Naci Altun, Middle East Technical University, Turkey  
Jari Aromaa, Aalto University, Finland  
Filip Ciesielczyk, Poznan University of Technology, Poland  
Hao Du, Chinese Academy of Science, China  
Zhiyong Gao, Central South University, China  
Christian Jungnickel, Gdansk University of Technology, Poland  
Marcin Lutynski, Silesian University of Technology, Poland  
Orhan Ozdemir, Istanbul University, Turkey  
Magdalena Regel-Rosocka, Poznan University of Technology, Poland  
Martin Rudolph, Helmholtz Institute Freiberg for Resource Technology, Germany  
Oktay Sahbaz, Dumlupinar University, Turkey  
Xuming Wang, University of Utah, USA  
Jan Zawala, Polish Academy of Science, Poland

## Publication information

It is recommended that the following guidelines are followed by the authors of the manuscripts:

- original papers dealing with principles and technological aspects of mineral processing are published
- the manuscript should be sent to the journal via manuscript management system available at <http://www.editorialsystem.com/ppmp>
- only manuscripts written in English are accepted, contributors whose native language is not English are urged to have their manuscript competently edited prior to submission
- for a full and complete Guide for Authors, please go to: [www.journalssystem.com/ppmp/](http://www.journalssystem.com/ppmp/)
- all articles are published in full open access. Once the accepted paper appears online Authors are asked to pay an article processing charge (APC).

Submission of papers is tantamount to a transfer of copyrights by the author(s) to Faculty of Geoengineering, Mining and Geology of Wroclaw University of Science and Technology Publisher covering publication in printed forms as well as electronic media (CD-ROM or Internet) of the articles and any modifications of it.

The papers published in the Physicochemical Problems of Mineral Processing journal are abstracted in BazTech, Chemical Abstracts, Coal Abstracts, EBSCO, Google Scholar, Scopus, Thomson Reuters (Science Citation Index Expanded, Materials Science Citation Index, Journal Citation Reports) and other sources.
